- If you are paying, select that. If someone else is paying, select that person.

Next you will select the competitor for that horse.

Next you will tap "Press to add classes" to continue.

- This is the screen where you will add all of the classes you would like to add.
- You can tap in the search bar to search a class, or you can use the down arrows to find a division or disciplines.
- HINT: If you are specific in your first search, you will have to clear your search bar to add a different class. Make sure your search bar is cleared to find more classes!

If I wanted to add the SHTX Open Trail, I would select these options.

This would be the discipline.

- That will bring up all of the trails.
- Then to narrow it down by class I will click the down arrow for divisions.

The L1 Trail will look like this:

- Through this screen you will select the classes you would like to enter.
- All of the classes offered are the same as if you were looking at the PDF Filler entry or the paper entry form.
- I selected SHTX Open Trail.
- HINT: The "B or A" at the end of the classes is just a computer programming mark, so it will not make any difference to you if it has an "A" or a "B" at the end.

- This is where it will take you, once you add the class and click save.
- If you want to add more classes, change your drop-down arrows to the next class you want to add.
- If you just want to add classes by division it might be easier.
